# ICONIC NORTHWEST LODGE ON COEUR D'ALENE LAKE

*"We searched all over the Western United States, and fell in love with this lake instantly. We especially love being in Mica Bay. We were so lucky to find a 2+ acre parcel there."*

*—Homeowners*

## FROM THE SELLERS—Top 10 things they LOVE most about the home:

- Initially, we thought we wanted a log home, but ultimately decided against a brown home with a brown interior. When we found a builder that used logs as an accent only... WE FELL IN LOVE.
- Our home was built in 2007-2008 when no one was building. Our builder had access to the best suppliers and sub-contractors. All of the materials we used were upgraded because the suppliers were motivated. It was great timing!
- We LOVE enjoying an open fire on the lower patio at the base of the waterfall. It's the perfect place to have a glass of wine.
- The most occupied perch is the covered deck off of the kitchen. The overhead heaters make the space comfortable no matter the time of day or the weather.
- The view is phenomenal!
- Large parcels inside a premier bay rarely come available. We got lucky finding a 2 acre lot in Mica Bay.
- Mica Bay is extremely social. We love seeing our friends putzing by in their boat(s). We exchange salutes using our classic school bell.
- As a car nut, it's especially cool to have a large shop for all of our toys. I challenge you to find a set-up like this anywhere else on the lake.
- Having the guest apartment in the shop makes it very convenient to have house-guests. They can stay in comfort in a private space.
- We love the location, in terms of easy access to the various points of interest around town and the Lake. We can get to the golf courses or the grocery store by land or by sea in just a few minutes.
- We love having family gatherings in the gazebo.
