STUNNING LAKEVIEW HOME AT BLACK ROCK

ONE OF THE ONLY HOMES WITH LAKE VIEWS AND DIRECT GOLF COURSE ACCESS

"The deck is such a relaxing sanctuary... The lake views and sunsets are some of the best we've ever seen."

—Homeowners

FROM THE SELLERS—Top 10 things they LOVE most about the home:

- The view from inside the house and the deck is just spectacular. The tree line across the lake is right at eye-level. We think it's the best lake & mountain views we've seen.
- We love the chef's kitchen! It was designed for entertainment with the double dishwasher and high-end appliances. There is ample cabinetry in the kitchen, and even more in the bar and dining room.
- The upper level master bedroom and spa-like bath are completely private and separate from the rest of the house. Such a relaxing sanctuary with incredible lake views and direct access to the front deck, one of our favorite spaces.
- The elevator is incredibly convenient. We can enjoy the best views on the upper levels without mobility being an issue for us or our guests. It makes unloading groceries or suitcases that much easier as well.
- The design of the home is unique, as it doesn't feel like a lake house or cabin. It feels like a comfortable and luxurious everyday home.
- The back patio and yard are perfect for kids or pets. Being adjacent to the course offers convenient direct access to hole #12.
- The garage offers plenty of room for storage and includes a dedicated golf cart space. There's tons of storage under the back patio too.
- The proximity to the back gate and Black Rock marina & beach makes the location of this home ideal.
- The house greets you with the beauty and sounds of a water feature & park like landscaping as you drive up and is highlighted at night by the landscape lighting. As you enter the front door to the main level, the lake views welcome you.
- Whether enjoying this as an everyday home or a vacation home, the detail, amenities and views leave you longing to return.
